DETAILED ACTION

Board Decision

1. This action is responsive to the Board Decision rendered on August 28, 2006.

Oath/Declaration

2. This application presents a claim for subject matter not originally claimed or embraced in the statement of the invention. A Continuation-In-Part to U.S. Patent Number 5,780,723 has been added to the Specification after the initial Declaration. Under the duty to disclose, the applicant must correct the oath. A supplemental oath or declaration is required under 37 CFR 1.67. The new oath or declaration must properly identify the application of which it is to form a part, preferably by application number and filing date in the body of the oath or declaration. See MPEP §§ 602.01 and 602.02.

Specification

3. Applicant is reminded of the proper content of an abstract of the disclosure.

Abstract of the Disclosure: See MPEP § 608.01(f). A brief narrative of the disclosure as a whole in a single paragraph of 150 words or less commencing on a separate sheet following the claims. In an international application which has entered the national stage (37 CFR 1.491(b)), the applicant need not submit an abstract commencing on a separate sheet if an abstract was published with the international application under PCT Article 21. The abstract that appears on the cover page of the pamphlet published by

Art Unit: 3622

the International Bureau (IB) of the World Intellectual Property Organization (WIPO) is the abstract that will be used by the USPTO. See MPEP § 1893.03(e).

4. The abstract of the disclosure is objected to because it contains more than 150 words. Correction is required. See MPEP § 608.01(b).

5. The disclosure is objected to because of the following informalities: The specification recites on Page 8, line 14 the phrase "Firewall Machine 5". However, there is no element number contained on any of the submitted Drawings. The specification recites on Page 8, line 15 the phrase "Gateway Machine 6". However, there is no element number contained on any of the submitted Drawings.

Appropriate correction is required.

Allowable Subject Matter

6. Claims 1-12 and 23-31 appear to contain allowable subject matter.
